

Denen-Kougei has been doing various activities and efforts for more than 30 years.

Here, we again define and communicate the SDGs.

### Goal 3. Good Health and Well-being

We continue the life aid and job aid for handicapped people so that they can live a normal life, friend making, search worthwhile jobs, and live a good social life.

### Goal 11. Sustainable Cities and Communities

It's been 12 years doing the clean-up activities of our local areas. As the works we do nowadays: park cleaning and pulling weeds of the private houses and institutions. We will continue these activities so that our town becomes a clean and comfortable place to live in.

### Goal 12. Responsible Consumption and Production

We are developing various self-made goods: soap from oil waste, hand-made post card from milk package, acryl mop from wire hanger, mat from T-shirts, and paper-bag from wrapping paper.

Besides, to crush aluminum cans for the support of making a wheel-chair.

These are circulated as source utilization and new value birth.

We communicate these efforts in our Home page and Instagram.

In September 2015, the United Nations Sustainable Development Summit was held in New York.

Here, "Transforming our world: the 2030 Agenda for Sustainable Development (2030 Agenda)" was adopted by governments around the world.
